### bravo 4051 manual

Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. See All Buying Options Add to Wish List Disabling it will result in some disabled or missing features. You can still see all customer reviews for the product. Love that you can print the labels directly onto the disk. No more spending countless hours sticking labels on. DVDs burn at a quick rate and the ink lasts for several hundred disks. Very pleased with this all in one machine. I wish I had found this years ago. I use it on a Macbook Pro. No issues. Software works easily bringing in the files or using a DVD as a copy. It has a decent label making software built into it. I would buy it again! Just yesterday it broke while using it. The Optical Drive snapped a pulley on the inside causing it to fail. The Robotic arm failed to pick up any disks during the robotic hardware test. MFG wont do anything because they said they only have a 3 month warranty yet everything says 1 year. Filing an AZ Claim now for a replacement or money back. Very disappointed in Primera Technical Support. Not worth this much money if it broke in 5 months and Im still using the original cartridges it came with. Also, to the technical rep that I spoke to at Primera.sorry to inconvenience you on your lunch break as you so eloquently put it. Please try again later. United States of Erica 5.0 out of 5 stars I run a small TV channel at a retirement community and we use this machine a lot. The residents can produce their TV shows, and then print DVDs with a decorative label on them. It was easy to teach them how to use it. Plus the customer service department was astounding in helping my resident replace the print head. Of course my residents are former technical people themselves. But it was great to have that type of support for them while I was

out.<http://rcot.org/userfiles/craftsman-lawn-mower-550-series-manual.xml>

I recommend this machine for anyone who needs from 3 to 100 DVDs produced at one time. We love it! Please try again later. Please try again later.
