This stat is directly related to how many white skulls their body has €ÁÁÁ they doneÁÁÁt suffer a penalty from red skulls, but the more white skulls they have, the closer they can get to doing tasks as fast as you could do them yourself. For example, if your zombie has 10% efficiency, then they will take 10 seconds to do a task that you could complete in 1 second. The maximum stat that a zombie can obtain is 40%, with 16 white skulls. To give your zombie as many white skulls as possible, you can modify them in the same ways that you can modify a corpse that you haveneÁÁÁt decided to put to work, on the autopsy table or embalming table. According to the Graveyard Keeper Wiki, the formula for the most efficient zombie is as follows: Remove the blood (-1 red skull, +1 white skull) and fat (-1 red skull, +1 white skull) Replace the brain, heart, and intestines with +3 white skull variants. Keep the flesh and skin. Apply a lye injection (+1 red skull, +1 white skull), glue injection (+1 white skull), silver injection (-1 red skull, +1 white skull) and gold injection (-2 red skull, +2 white skull) Removing the skull and bones won€ÁÁÁt affect the quality of your zombies at all, so you can really do what you want with that part. A basic zombie working in the yard. Note that he has three white skulls, giving him an efficiency rating of 8% Jobs for Zombies Congratulations! You are now capable of resurrecting an army of zombies to complete a wide variety of tasks, leaving your time free for figuring out how to get home. The next question is, what do you need them to do? Zombies can complete almost any menial task in Graveyard Keeper, given the right tools. Woodcutting Zombie cutting wood Generally, the first job that people set their zombies to is woodcutting. The game even provides a good spot for this; iteÁÁÁs a large tree close to where you found the first zombie that comes with a ready-made timber j yrewerb eht ot spoh dna separg eht tropsnart of drayeniv ruoy ni noitats retrop a tup nac uoy j ecnereffid yek eno rof tpecx ,smraf eibmoz ekil yltxaxe krow sdrayeniv eibmoz CLD sniS regnartS(drayenIV .niaga meht tnalp dna gnitsevrah retfa siht revocer lliw eibmoz eht tub ,sdees 42 serluqer gnitnal P,emit eno ta porc eno fo 04 dna 02 neewteb erehwyna ecudorp nac dna tolp nedrag lamron a naht regil si nedrag eibmoz The tnalp dna sporc gnitluser eht tsevrah dna ,stolp eht retaw ,sdees tnalp lliw seibmoz ;krow eltll a htiw suomonotua ylluf edam eb nac aera siht j .it's a j -Áaliow dna ,emoh ta elipkcoots ruoy ot kcab sgoj eht ekat of eibmoz rehtona tes nac uoy erehw ,noitats retrop a dnathe House. Vinator (Stranger Sins DLC) is of course these grapes need to go somewhere, and zombies can help turn their maimmakers vincola into a huge business. A zombie Vincola can produce 40 red wine at a time and can be incredibly lucrative, especially when you start producing higher quality wine. Unfortunately, you can only build a Vincola, and the progress in the production of wine tends to be quite slow. Be sure to put your best zombie at work to maximize efficiency and profits. Brewery (Stranger Sins DLC) This will work just like Vincola Zumbi, with 10 beer at a time as a result. It is not a lucrative vancola and involves a little more ingredients - the beer is made with a mixture of wheat and water, while you are only necessary grapes to make wine. However, it does not mean that it is not a good investment. Write texts from the zombie -ribs are not exactly aside to the Living Human, but you can still make them write low quality stories if you configure them with paper on a writing table. Once the stories are produced, you can turn them into notes, cultivating blue points as you advance. Crate Factory This is automated a subsequent game mechanic that you unlock it through the merchant's mission line. By completing more missances for him, he will offer to buy materials or cultures boxes for approximately 10 silver each. You can put a zombie to work in boxes and send them to the home of the house through a pulley system. Then you can assign a charger to be under the house to bring the boxes to the merchant. This is also a really lucrative system if you put a little work on it.
